

Committee Update – May 2018

The vision for Greater Christchurch

By the year 2041, Greater Christchurch has a vibrant inner city and suburban centres surrounded by thriving rural communities and towns, connected by efficient and sustainable infrastructure.

There are a wealth of public spaces ranging from bustling inner city streets to expansive open spaces and parks, which embrace natural systems, landscapes and heritage.

Innovative businesses are welcome and can thrive supported by a wide range of attractive facilities and opportunities.

Prosperous communities can enjoy a variety of lifestyles in good health and safety, enriched by the diversity of cultures and the beautiful environment of Greater Christchurch.

Greater Christchurch Partnership Committee

The Committee governs and leads the partnership. It is a formal joint committee established under the Local Government Act 2002.

A key focus of the Committee is to oversee implementation of the Greater Christchurch Urban Development Strategy and the priority actions contained therein. The Committee also recently adopted the Resilient Greater Christchurch Plan.

On significant matters the Committee seeks ratification from each of the individual partner governance meetings.

It is supported by regular meetings of the Chief Executives Advisory Group ('CEAG').

The Committee met on 11 May 2018.

Key points from the meeting are:

- The Committee endorsed the proposed approach and scope for the development of a future development strategy. The scope sets out the relationship to the requirements of the National Policy Statement on Urban Development Capacity (NPS-UDC) and the rationale guiding the proposed approach. It sets out the key milestones, broad content scope and the anticipated document structure and language to be used. The Committee recommended that individual partners ratify the agreed Future Development Strategy scoping paper, and the draft Future Development Strategy when complete to allow public consultation to occur in August 2018
- The Committee received the Urban Development Indicators quarterly monitoring report for the period July to December 2017 (Nos 3. & 4.). This quarterly monitoring report complies with the requirements of the National Policy Statement on Urban Development Capacity. The report covers a range of housing and business market indicators.
- The Committee received an update on the Canterbury Wellbeing Index and noted that the new Canterbury Wellbeing Index will be released in late 2018.
- The Committee received the monthly Urban Development and Regeneration Update for April, which can be accessed at: <http://www.greaterchristchurch.org.nz/partnership/ud-and-r-updates>
- The Committee is next scheduled to meet on 8 June 2018.
